

CodeHS

AP Computer Science Principles

OVERVIEW

With a unique focus on creative problem solving and real-world applications, the CodeHS AP Computer Science Principles course gives students the opportunity to explore several important topics of computing using their own ideas and creativity.

CodeHS is recognized by the College Board as an endorsed provider of curriculum for AP[®] Computer Science Principles (AP CSP). This endorsement affirms that all components of CodeHS's offerings are aligned to the AP Curriculum Framework standards and the AP CSP assessment.

TEACHER TOOLS

Monitor class and individual student progress, easily and efficiently grade student work, design a customizable and dynamic class syllabus and more. Teachers find tools to save them time and focus one-on-one with their students.

TEACHER RESOURCES

Access daily lesson plans, offline handouts and activities, sample solutions and more. Teachers have access to all of the resources they need to teach their class, all in one place.

AP TEST PREP

Prepare for the AP exam with our large repository of autograded practice quizzes on all main concepts, as well as full practice AP Exams.

AUTOGRADING

Autograding provides immediate feedback on the functionality and style of a program. Students receive helpful feedback to help them debug their programs, without needing immediate support from their teacher.

CREATE AND CUSTOMIZE CURRICULUM

With CodeHS Create, teachers can customize their own curriculum and create exercises, projects, assessments, autograders and more.
