

# BUILD YOUR OWN MOBILE APPS

Think about all the apps you use on a daily basis...

... Have you ever wondered how apps like Snapchat were built?

Every one of these apps were built with code! Engineers use the same programming languages you will learn with CodeHS like HTML, JavaScript, and Python to build and maintain your favorite apps.

## It's Your Turn! Start Coding Today with CodeHS

Scan the QR code to download CodeHS apps at [codehs.com/apps](https://codehs.com/apps)!

With CodeHS, you can learn all of the programming languages you need to build your very own mobile app! CodeHS curriculum ranges from introductory level programming courses all the way to AP level text based courses in many languages.

*"MY NUMBER ONE PIECE OF ADVICE IS: YOU SHOULD LEARN TO PROGRAM."*

MARK ZUCKERBERG, CEO OF FACEBOOK

Talk with your teachers and administrators to enroll in your first coding course today!
