

# CodeHS Pro

CodeHS Pro provides everything your school needs to offer an amazing computer science program, all in one place! Join thousands of schools that use CodeHS Pro to teach computer science!

## Comprehensive 6-12 Pathway

Whether you teach middle school computer apps or AP Java, CodeHS has a course for your classroom

## Powerful Teacher Software Tools

Progress tracking, grading, cheat detection, customizable gradebook, custom assessments. You name the tool, CodeHS has it

## Extensive Classroom Resources

CodeHS Pro saves teachers hundreds of hours over the course of the year by providing lesson plans, activity handouts, offline assessments and more

## Dedicated Teacher + Admin Support

When you sign up for Pro you receive outstanding 1:1 support from our expert Account Managers

## Powerful Features for Schools + Districts

Whether starting your school's first coding class or building out a district-wide program, CodeHS is the most comprehensive solution for middle school + high school computer science!

### Save Time with Lesson Plans

On Pro, every CodeHS lesson comes with a detailed lesson plan, ensuring that you spend less time.

### Visualize and Analyze Student Progress Data

Teachers use the many progress tracking tools available on Pro to track exactly where students are in a given course, and to run a self-paced or more traditional class.

### Assess Student Learning and Mastery

With our assessment tools and reports, you'll have access to exactly the data you need to determine what students need more support on.

### Integrate with your SIS system

The CodeHS customizable Gradebook makes it easy to turn student progress and performance on CodeHS into grade, and to export that data to any external system.
