## Rostering Tools & Integrations

### Set Up Your CodeHS Class in Only a Few Clicks!

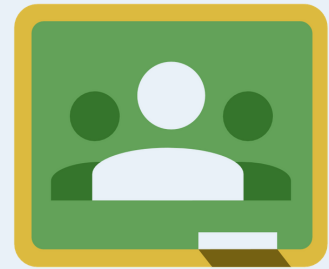

With our rostering tools & integrations, teachers can seamlessly import their student roster and set up their CodeHS class in only a few clicks.

Whether your school uses Google Classroom, Clever, or a custom SIS, it is easier than ever to create CodeHS sections and student accounts -- no more wasted time at the start of class to create new student accounts and enroll students in the correct CodeHS section!

### Google Classroom Integration

#### Does your school use Google Classroom?

We integrate with Google Classroom! In only a few clicks, teachers can pull in their student roster from Google Classroom and set up an entire CodeHS section including student accounts.

Google Classroom

### Clever Integration

#### Does your school use Clever?

We integrate with Clever! Teachers using Clever can select CodeHS as an application in the Clever Library and immediately create CodeHS sections and student accounts.

### Other SIS Systems

#### Does your school use a custom SIS system?

No problem! For other SIS systems, please contact your CodeHS Account Manager or email us at [hello@codehs.com](mailto:hello@codehs.com) to learn more.
